

A scatter plot showing the relationship between Enhancement in  $\langle W \rangle$  (x-axis) and Enhancement in  $\langle W \rangle$  (y-axis). The x-axis ranges from 0.8 to 1.1. The y-axis ranges from 0.8 to 1.1. A linear fit line is shown with a correlation coefficient  $r = 0.13$ . Data points are labeled with letters: T (red), C (purple), R (blue), F (blue), Q (yellow), and S (orange).
